BACK COPIES

While back copies of The Key are available at 50¢ each as long as they last, it is important that subscribers keep complete files of the magazines indexed because it is impossible for The Methodist Church to maintain a large supply of back copies of their many periodicals. Such a service would be an expense which would, if necessity, raise the prices of these magazines to you.

PERSONAL NOTE

In planning our venture with this 'Periodical Key' we have tried in every way we know how to put ourselves in 'your shoes' to know just how we might be of the greatest help to you in your varied church activities. This is not an easy thing to do even though we have drawn on a rich background as a minister's daughter, a Wesley Foundation director of student program, and an unusually varied experience as a lay worker in music, Christian education and the Woman's Society. We have also drawn upon the experience of the editor's husband who, while not the son of a minister, has a sound training received in the home of a 'pillar-of-the-church' type couple. Carrying his early training into his adult life, he has been an active layman within many of the areas which the editor's experience has missed.

This venture has grown out of the need felt by both of these busy and active laymen for such an aid. We trust that as this publication continues, you will share with us any ideas you may have for making it more valuable and usable. We have received many suggestions from subscribers in the past and most of them have already become part of our index. However, some of them have had to be delayed until we grow in circulation so that we can afford them. We remain open to almost any suggestion except lowering the price. This we cannot do for we've 'skinned it to the bone' already believing that your money should be found in your church envelopes in as great a quantity as possible.

---The Editor

READER'S SUGGESTION

Mr. Chester S. Sheppard, church school superintendent in Mount Vernon Place Methodist Church in Washington, D. C., is making a real effort to apply The Periodical Key to his particular situation. He has listed the various groups and committees of his church with suggestions as to which subject headings in The Key would be helpful to each of them. This listing, with a brief explanation, will appear in the monthly publication of his church.

This is one of Mr. Sheppard's answers to his own question as to how to acquaint people with the possibilities in The Key and how to encourage them to take advantage of its help.

Editor's note: We would like to have others share with us various ways they have used the Key and suggestions for motivating others to use it.

N N N N N N N N N N N N N N N N N N N N

IF I WERE --- A CHURCH LIBRARIAN

About the first thing I would do upon receiving THE PERIODICAL KEY would be to look it over thoroughly to see hwat it contains which would be of particular help to my church. This I would do each month, for the emphases of my church vary from time to time, as do the special helps in THE PERIODICAL KEY.

One of the problems is making sure that as many of the indexed magazines are available to my people as is possible. Several things may help here. First, there will be some periodicals actually subscribed to by the church library, but I would not stop here. I would find out about others taken by various people within my church and see if they would be willing to make the older copies a gift to the library regularly. Some of them may prefer not to do this. However, I would be able to list each magazine and where it might be obtained. This kind of a list might be duplicated and distributed to any church members who hold some active position in my church, or other interested folks.

Another problem is storing these magazines for reference. This can be done expensively if I happen to be librarian in a large, well-to-do church by obtaining binders for the various sized periodicals. However, I very probably would not be the librarian in a church such as that, so I would choose to use magafile boxes which can be obtained from library supply houses such as Gaylord Bros. in Stockton, California. It May be that The Methodist Publishing House could supply these for me if they knew what I wanted, so I would write to them about my needs.

I would create as nice a spot as possible for folks to sit to do reference work in the church library but I would also want to devise a simple check-out system for those who wish to take magazines out for more intensive study. This system will vary according to the situation of the library and the library habits of my church. Of course, I would be realistic enough to realize that my magazines would get lost sometimes, so I would try to build up a surplus, stored in some out-of-the-way place but still in good order for handy hunting. These could be from donations.

Out of these surplus donated magazines I would do some clipping where possible, without cutting the surplus down too much. I would clip the pictures for teaching which are listed in THE KEY each time and file them for checking out to teachers. I might do more clipping and develop a vertical file of the various subjects in THE KEY, but this would depend upon how much time I was able to give to the library.

If I could get regular space in my church's paper, I would emphasize my magazine service now and then with suggestions as to how THE PERIODICAL KEY might be used to make better use of the magazines.

Yes, if I were a church librarian---I'd be busy!!!
